Guy Hollar  
(6/14/1952 – 10/5/2008)

## Rock Solid Guy

If you were to tell Guy Hollar that there was a tournament organized in his memory, he would be greatly touched and humbled. He truly loved his career at Rock Barn and those he interacted with every day. Without a doubt, Rock Barn residents, staff, and guests were a huge part of Guy's life in addition to his family.

Guy was married to his high school sweetheart, Marsha, for over 35 years, and they had 2 children, Eric and Heather, and now have 4 grandchildren.

His greatest love was Jesus Christ, and his faith was evident every day. If you knew him for any period of time, you probably knew that he had a strong faith and enjoyed discussing it with those he came across in life. He always had on his W/WJD (What Would Jesus Do) bracelet as a reminder to himself.

As a child, Guy grew up on a farm and learned a very strong work ethic from his father. This was the building block for what became his desire to become a golf course superintendent. He began working for Rock Barn from the time the original course was being built. The manner in which he performed his daily duties demonstrated how much he loved his job. He continuously stayed involved in the Golf Course Superintendents Association of America as well as the Carolinas Golf Course Superintendent Association and enjoyed his chance to give back to those organizations. He played a major role in teaching others about his profession at local schools and his alma mater, CVCC. He was well-respected within all of these organizations and was awarded posthumously the Turf Grass Council of North Carolina Eagle Award in December 2008.

On October 5th, 2008, Guy's second battle with leukemia came to an end. However, Guy's legacy will continue through the Guy Hollar Memorial Scholarship. This would have greatly pleased Guy!

- The Family of Guy Hollar
